Project activities :

- created a framework for cross-border cooperation by developing a common tool for presenting the archaeological, historical, and cultural heritage of the Black Sea region;

- aim for the results to serve as an information bridge between the academic community and the tourism sector;

- support the conservation and promotion of monuments in their cultural landscape and natural environment;

- hope to encourage local authorities to conserve and promote monuments by integrating them into local development plans, thereby creating conditions for the socio-economic development of the region through cultural tourism.
